Data are collected and processed in order to deal with your ongoing concerns, as well as to improve the user-friendliness of our website.

4.2 Why is your company permitted to process my data?

Current data protection legislation (= EU General Data Protection Regulation) permits the processing of your data (= personal data) if we have a legitimate interest (see 4.1) and can assume that you have no serious objections (Legitimate interest, Art. 6 Par. 1 it. f DSGVO). This occurs in accordance with § 25 par. 2 no. 2 TDDDG (German Telecommunications Digital Services Data Protection Act), particularly in conjunction with essential cookies.

If, for example, you use our *webshop* or request an *individual consultation*, the DSGVO permits us to process your data for the purposes of initiating and closing a contract with you in accordance with Art. 6 Par. 1 lit. b DSGVO.

If you have given us your consent, for example in order to receive our *newsletter* or *white papers* or regarding *cookies* etc., if applicable for the transfer of data to our subsidiary, the General Data Protection Regulation permits us to process your data in accordance with Art. 6 Par. 1 lit. a DSGVO. 6.1 Alugha Video-Player

This website uses the Alugha video player, an embedded function from the provider Alugha GmbH, O7, 17, 68161 Mannheim, Germany, for presenting and playing videos (further information at <https://alugha.com>).

In conjunction with this video player, video performance data are captured for diagnosing errors and creating performance reports for website operators. Here Alugha has implemented data protection measures which guarantee the highest degree of data privacy and anonymisation. They include the absence of tracking cookies and fingerprinting, the standardised anonymisation of user IPs, as well as storage of the data exclusively on Alugha servers within the European Union. The data captured by Alugha during video use are made available to us as the website operator. At no point in time is it possible to assign specific collected information to individual users/viewers. 6.2 etracker Analytics

The provider of this website uses the services of etracker GmbH, Hamburg, Germany (www.etracker.com) to analyse usage data. We do not use cookies for web analysis by default. If we use analysis and optimisation cookies, we will obtain your explicit consent separately in advance. If this is the case and you agree, cookies are used to enable a statistical range analysis of this website, a measurement of the success of our online marketing measures and test procedures, e.g. to test and optimise different versions of our online offer or its components. Cookies are small text files that are stored by the Internet browser on the user's device. etracker cookies do not contain any information that could identify a user.

The data generated by etracker on behalf of the provider of this website is processed and stored by etracker solely in Germany by commission of the provider of this website and is thus subject to the strict German and European data protection laws and standards. In this regard, etracker was independently checked, certified and awarded with the ePrivacyseal (<https://www.eprivacy.eu/en/customers/awarded-seals/company/etracker-gmbh/>) data protection seal of approval.

The data processing is based on Art. 6 Section 1 lit f (legitimate interest) of the General Data Protection Regulation (GDPR). Our legitimate interest is the optimisation of our online offer and our website. As the privacy of our visitors is very important to us, the data that may possibly allow a reference to an individual person, such as IP address, registration, or device IDs, will be anonymised or pseudonymised as soon as possible. etracker does not use the data for any other purpose, combine it with other data or pass it on to third parties.

You can object to the outlined data processing at any time by clicking on the slider on <https://www.steute.com/en/data-privacy>. The objection has no disadvantageous consequences. If no slider is displayed, the data collection is already prevented by other blocking means.

Further information on data protection with etracker can be found at <https://www.etracker.com/en/data-privacy/>.

6.3 Google Ads and Conversion Tracking

This website uses Google Ads. Google Ads is an online advertising software from Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland ("Google").

Within the framework of Google Ads, we use so-called conversion tracking. When you click on a Google ad placed by us, you will be redirected to one of our websites. Our system will be informed that a click occurred, but the information will be anonymised for statistical purposes and then further processed to optimise our ads in the future.

For more information about Google Ads go to the Google data privacy statement at: <https://www.google.de/policies/privacy/>.

6.4 Microsoft Ads / Bing Ads

Within the framework of our marketing activities, we use Microsoft Advertising from Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399, USA. This service helps us to draw the attention of companies to the high quality of our products. If you reach our website via a Microsoft Bing ad, a cookie will be stored on your computer by Microsoft Bing Ads. This informs Microsoft Bing and us about the fact that somebody has clicked on an advertisement, has been forwarded to our website and has accessed a pre-determined target page (conversion page). We only know the total number of users who have clicked on a Bing ad and have then been forwarded to our conversion page. We do not know any personal information about the identity of these users.

Microsoft and processing

You can find further information about data privacy and the cookies used by Microsoft and Bing Ads (Microsoft Advertising) by visiting the Microsoft website: <https://privacy.microsoft.com/de-de/privacystatement> and <https://about.ads.microsoft.com/de-de/policies/legal-privacy-and-security#privacy-and-data-protection-policies>

If you are not in agreement with Microsoft being able to process information about your surfing behaviour as laid out above, you can object to the setting of cookies for this purpose – for example using the browser setting which fundamentally deactivates the setting of cookies. Moreover, you can prevent the capturing of data generated by the cookie and relating to your use of the website, as well as processing of these data by Microsoft, by withdrawing your consent. To do this, click on the following link:

<https://account.microsoft.com/privacy/ad-settings/signedout>

If you have consented to use of Microsoft Bing Ads (otherwise known as Microsoft Advertising), then this consent constitutes the legal basis (Art. 6 Par. 1 lit. a GDPR) for processing of your personal data.

How long will we store your data?

Once their purpose has been served, we will delete all data received from you via Microsoft unless we are legally obliged to retain the data for longer, or still require the data for the execution or completion of an existing contractual agreement, or still require the data as evidence. In such cases we delete the corresponding data once the legal retention period has expired or as soon as we no longer require the data for the execution or completion of an existing contractual agreement, or as evidence.

We have no information about the Microsoft policy for deleting personal data.

6.5 Lead Gen Forms bei LinkedIn

Using this service within the framework of customer acquisition means that interested parties have a quick and easy way of forwarding their email address and other user information to us. Specifically: first name, surname, email address, professional title and company name.

This functionality enables us to target interested parties more accurately.

LinkedIn and processing

If you are a member of LinkedIn, this platform can match call-up of the abovementioned data to your registered user profile. Please click on the following link for further information from LinkedIn about data privacy and Lead Gen Ads: <https://www.linkedin.com/legal/privacy-policy> and/or <https://business.linkedin.com/de-de/marketing-solutions/native-advertising/lead-gen-ads>

You can optionally disable this function for the future by setting an opt-out cookie: <https://www.linkedin.com/psettings/guest-controls/retargeting-opt-out>.

The legal basis for using the Lead Ads Tool is Art. 6 Par. 1 lit. f GDPR. Our legitimate interest for using this tool is the conducting of marketing activities aimed at initiating new business.

How long will we store your data?

Once their purpose has been served, we will delete all data transferred via Lead Gen Forms unless we are legally obliged to retain the data for longer, or still require the data for the execution or completion of an existing contractual agreement, or still require the data as evidence. In such cases we delete the corresponding data once the legal retention period has expired or as soon as we no longer require the data for the execution or completion of an existing contractual agreement, or as evidence.

Should any incorrect personal data be processed, you have the right acc. to Art. 16 DSGVO to **correction** of that data. Within the legal provisions you can request **deletion** of your data or **restriction** of data processing (Art. 17 and 18 DSGVO), as well as to **object** to data processing (Art. 21 DSGVO) and you have the right to **data portability** (Art. 20 DSGVO). If processing is based on consent (Art. 6 Par. 1 lit. a or Art. 9 Par. 2 lit. a DSGVO), you can **withdraw** your consent at any time and with future effect. If you believe that processing of your personal data violates data privacy law, then you have the right to lodge a **complaint** with a supervisory authority in accordance with Art. 77 Par. 1 DSGVO.

If legitimate doubts exist about your identity, we are permitted to demand additional information from you for identification purposes. If it is not possible for us to identify you, we have the right to refuse to comply with your request. We shall inform you separately should identification prove impossible – provided it is within our power to do so (see Art. 12 Par. 6 and Art. 11 DSGVO).

Requests for disclosures and information will usually be managed immediately, at the latest within one month after receipt of the request. This period can be extended by a further two months if necessary due to the complexity and/or number of requests; in the event of a delay, we will inform you of this and give reasons for the delay, at the latest within one month of receiving your request. If we should fail to comply with a request, we will inform you of the reasons for this immediately, at the latest one month after receiving the request, as well as inform you about your options regarding a complaint to a regulatory body and/or the claiming of legal aid (see Art. 12 Par. 3 and Par. 4 DSGVO).

Please note that you can only exert your rights as an affected party within the framework of restrictions and limitations stipulated by the European Union or its member states (Art. 23 DSGVO)

7.4 Must I grant access to my data?

In order for us to fulfil the conditions laid out in Section 4.1, it is necessary that you grant us access to your personal data.

In order to finalise and implement a contract with you, it is crucial for us and also a legal requirement. If you do not grant us access to your data, we cannot enter into a contract with you.

Should you have a complaint, you can apply to the appropriate regulatory body at any time. The regulatory body named in Section 3.3. is responsible for our company.

You have the right to go to court against a regulatory body acc. to Art. 78 DSGVO, and against our company acc. to Art. 79 DSGVO.

7.5 Automated decision-making/ profiling

We perform no automated decision-making or profiling.
